General Report Comments: There are 2 female pitbull dogs that are sterilized. Both dog's are underweight. The one female dog is 16 years old. The owner said he knows that the dog's has lost body weight because he can't feed him what he used to. He lost his job due to injury. I educated and gave him a warning that the dog's need to get adequate food every day and that they need to pick up body condition within 14 days. I also asked him to rather sign over the older female dog. Will Re-check again
