General Report Comments: There was no people at home when I observed the dog named Brock. He had made a hole on the fence and was inside the neighbors property. He could not afford to go back so he was stuck on the other side. I asked one young boy to help me unchain Brock and I did load him into the SPCA bakkie for safe keeping while I try to find the owner's contact information. The house wife came a few minutes later and I advised her to move the dog away from the fence. The dog was on a running chain with a collar on. The dog's body condition is fair and acceptable. Water, food and shelter observed. I gave Brock to Carmin and she did put her back on the running chain. She asked one boy to close the hole on the fence
