General Report Comments: Sonja let me on the property where I observed 1x black and tan female German shepherd x and 1x white and brown terrier x male. The terrier x male has severe mange and is off balance. I phoned the owner Collin and asked him if he does not want to surrender the dog as Flaffie is sick and can also infect Layla. Collin decided to surrender the dog Flaffie. I also issued a warning to deworm Layla and to provide her with adequate dog food. Will do a recheck.
