General Report Comments: I got a call from the office about the dog that is roaming around the street chasing people and I went there to check on the dog and I found the dog inside the property and the kids told me that if they forgot to lock the gate then the dog goes out.. I saw the dog busy scratching his body and I saw he is losing some hair and I advise the kids if the parents came back they must call me so I can explain to them that mange is treatable. They showed me where the dog sleeps and water was provided while I was talking to the kids. Will recheck after 7 days.
