General Report Comments: Mr Matuka stopped me and asked if I can't come and have a look at his dog because there is something wrong with his dog. I went with Mr Matuka to his house and saw 1x tan Boerboel female with a prolapse. Mr Matuka says that she was on heat and after the heat the prolapse started. I told Mr Matuka that the only way to treat this is to get the dog sterilized. Mr Matuka agreed and asked if we can help him, but he is willing to pay for the sterilization. I called Loraine to ask if we can get an appointment at the Village vet for sterilization. Appointment was made and I took Teddy with to the Spca in Darling to be sterilized on the 27 July 2023 at the Village vet. Will follow up.
