General Report Comments: Peter who is also looking after the plot told me that Jacob who was there left for home. I asked Peter if I can see the 2x boerboels and he told me that the owners brother came to fetch the male and that is only the female that is there. We went to the back where I saw the brown female boerboel still on a long chain with a collar. Water, food and shelter is available. The female boerboel has not gained any weight since I've been there 2 weeks ago although adequate dog food is available. Peter told me that the dog is eating but does not seem to put on weight. I asked Peter where the owner is and he told me the owner is in the Congo and his girlfriend is staying in Cape Town and he has not seen them for quite some time. They only communicate over Whatsapp. I asked Peter for the girlfriends phone number. I called the girlfriend but she did not answer her phone. I issued a 24 hour warning to get the female boerboel to the vet. Will follow up.
