General Report Comments: Heinie Lambrechts who is the owner of the 2x pitbulls on the property took me to the back where I observed 1x black male pitbull and 1x brown female pitbull inside a enclosure. The reason why the dogs are in the enclosure is because the fence of the property that Heinie is renting is to low and the dogs can easily jump over it. The female pitbull has a open wound on her tail because se tried to escape from the enclosure and cut her tail at the wire. Water,food and shelter is available. I issued a warning to get vet treatment for the wound on the tail. Will recheck.
