General Report Comments: Trudie let me onto the property. I observed a female pitbull Roxy with 8 puppies. The dog was underweight. Trudie told me that the dog was underweight because of the puppies. I educated her on sterilisation. I have her a warning for the dog to pick up weight within 2 weeks. Ruskel a cross breed dog with a bad skin condition. She told me that the dog is under treatment by the vet in Malmesbury. I gave her a warning that I want to see the vet report for Ruskel. There is also a male dog Max that I gave her a warning for to take Max to a vet within 5 days. Trudie showed me a bag of Monty and me but I explained to her that the mother pitbull Roxy requires additional nutrition.
