CHECKLISTS

General Report Comments: I arrived at the property and there was a bird with an injured wing. The complainant do not have any proof of the person shooting with a pellet gun. According to them they hear shots. I told them if they can get us evidence like pictures or video it will assist. I took the bird to the vet and Dr Anel told me that she cannot confirm that the bird was shot. It is an old wound and could be from a cat that tried to catch it also. So I can do nothing further until we have more evidence. I advised Law Enforcement and they will also do an inspection at the property wrt firing of a gun in the build up area. NFA
