General Report Comments: The terrier x is on a long chain with a collar because Peter the owner lives on a farm and the dogs can't be let loose because there property is not fenced. I explained to Peter why the metal drum is not adequate shelter for the dog because during summer it gets intensely hot inside that drum and during winters it's cold. Peter understood and said that he will look for some pellets to build a kennel. I issued a warning to provide the dog with adequate shelter within 8x days. Will recheck.
