General Report Comments: The kids was alone at home and could not let me in because the 2x dogs are very aggressive towards strangers. I looked over the vibracrete fence and saw that the dogs have shelter and water available. Body condition is also available. No injuries or marks was seen on the dogs that can indicate that they are being hit. I've explained to the complainant that she must take pictures or videos to make the case stronger and then we also have proof but otherwise there is no proof and it's her word against the owners. Nfa until further notice.
