General Report Comments: I went to the small holding with Mr Isaac Sifiniza and there was no people at the small holding. I observed two pigs that were outside. There was water containers filled with water at the property and I gave all the pigs some water. There was dirty water in some pigsty. Some pigsty have got mud. Some pigs have skin condition and they need detomax vaccine. After leaving the small holding I went to Mr Rasmeni's work place and issued him with a warning. I also gave him the contact details of the state vet.
