Comments:	I received a call from the owner, Marius - +27832869262 He was furious about what I said about the sunflower seed, and that I recommended that sepcies specific food is used. He said many other inspectors has been at his shop over the years and no one ever had an issue. He mentioned that he already sorted out the crayfish tank. I recommended that we speak in person as he was shouting at me over the phone, and I was not having it. He agreed to let me know when he is at the shop the following day.
