Comments:	I called the owner to discuss the fence that he has hightend. The dog is now roaming freely inside the enclosure. The enclosure size is approximately 10m x 7m, it is under a tree and a kennel is inside. The owner is saving money to enlarge the enclosure, however, I am satisfifies with the current arrangement with the dog roaming in the enclosure, as if the dog was free roaming on the property the other dog, rottweiler will kill this dog. When i am in the area 8n a few months i will do a drive by and see if the owner is still in compliance and allowing tbe dog to roam in the enclosure.
