Inspector:	CARINA BODENSTEIN

Type:	RE-CHECK
Follow-Up Date:	2024-03-29
Comments:	I briefly went past the property after the Saleyard inspection. I met with the owner, Mr. PEPPER. 0813921160 He advised that the sheep has been sheered, this was evidently visible. The area has also been cleaned and the rubble removed. The owner is just waiting for material to install the runners, however all the rocks have been cleared in the intermin and the normal chain is atleast moving around without any obstructions. I will follow up regarding the runners when I am in the area again in 2 weeks.
