Time: 09:32
Inspector: PATRICK CHIWAWA

Type: CASE DISCUSSION NOTE
Follow-Up Date: 2024-03-12
Comments: Dear Sir or Madam,

I am writing to share my concern regarding my neighbor, who has been constantly attacking and offending my family since we moved in. She has been using our dog as a scapegoat to target us. On Saturday alone, law enforcement and the SPCA were called three times because of her complaints .

I am feeling restless and annoyed as it seems that my neighbor is unhappy about having black people living in the area. She has mentioned several times that our presence has negatively affected the price of her property and that we should move back to the township where we belong.

We have fenced our yard to ensure that our dog stays inside . Law enforcement and the SPCA have confirmed and checked it on Saturday, Sunday, and Monday. However, I still have a question: among the many dogs that go there, as she stated that about six dogs are going into her yard every night, why is she persistently following me? What is happening in her yard that attracts so many dogs to her yard?

Her husband once told me that they breed dogs for commercial purposes. I would like to inquire if it is legal to breed dogs for commercial purposes without a valid license and, if there is one, what are the conditions? I would also like to know, in terms of the law and your experience, what else we can do after keeping the gate locked and fenced free of holes and gaps. Is there a possibility that her dog is in heat and attracting all other dogs to her place? My neighbour is rude and very aggressive with her words, making it impossible to have a decent conversation about the issue.

Therefore, I kindly ask you to verify what exactly attracts all these dogs to her yard. Thank you in advance for your consideration or recommendation.

Sincerely,
Joao
