Comments:	I called the owner, he advised that he works in Cape Town and that he has family members residing in town that comes daily and give food and water to the dog. I explained to him thay the members of the community states differently , and he advised that he will contact his family and find out what is going on and let me know before the end of the day. He also stated thay he thinks he will rather come and fetch the dog and take the dog with him, where he can take responsibilty himself for the dog, which will be better. I will await the owner's response, before any further action is taken
