Inspector:	CARINA BODENSTEIN

Type:	CALL RECORD - MADE
Follow-Up Date:	2024-04-23
Comments:	Whatsapp was sent to the owner to do the following: 1. Move the wooden kennel to marked area. This will provide the dog with adequate protection against the weather elements. 2. The raw chain around the neck will cause unnecessary harm to your dog. Attach the chain to his collar. The chain can run through the hosepipe as a collar. 3. The chain around the pole must be attached to the pole with a swivel, as this will prevent the chain from twirling and restricting the dog's movement. The chain must then also have a swivel attaching to the collar. 4. The chain can be extended with at least an additional 2 meters to provide the dog with more roaming space. The property is large, but the dog is restricted to a very small area. I will check next week Tuesday that the above have been implemented
