Type:	GENERAL
Follow-Up Date:	
Comments:	Not collected because the owner thought we will take the dog to treat the wound because he thought the spca is a hospital for the dogs and I explain to him that we are not going to treat your dog and you signed him over is not coming back and they showed me the antibiotics wound spray that they are using for the dog and I told them to spray the wound and bandage it so that the dog can not leak the wound. Water and shelter was observed and the body condition of the dog is acceptable will recheck after 7 days.
