Time: 08:41

Inspector: CARINA BODENSTEIN

Type: RE-CHECK

Follow-Up Date: 2024-05-09

Comments: Arrived at 06h50.

Begun at 07h00. 3x PH. 2 was stationed opposites sites of the dam. 1 was on a golf cart to make follow up shots when needed.

25 geese were culled this morning, the rest flew away.

Air rifles with Co2 is used with silencers. Low calibre air rifle cartridges used.

Birds were shot directly in the head or neck (with a follow up kill shot)

The carcasses are pushed to side of the dam with the watwr fountain's flow, 2 by ground workers are assigned to pick up the carcasses asap.

Monday morning only 9 was culled.

Depending on the weather, they will cull tomorrow morning till Saturday morning, as Dawie is going away next week and then there will be no culling.

I will call Dawie this afternoon to confirm tomorrow mornings culling.
