Comments:	Maggi Maarman the owner of the pitbull female called Angel that was hit with a panga came to the Spca office after being at the Village vet. Maggi told me that they spoke to Dr. Jennifer and that she has booked Angel for an operation on Thursday. Maggi also told me that Dr. Jen gave Angel some pain medication and antibiotics until Friday. I called the Village vet and spoke to Herchelle who is the receptionist, I asked to speak to Dr. Jen just to verify if what Maggi told me was the truth. Herchelle said that Dr. Jen was busy with a patient but he will ask her and come back to me. Herchelle contacted me a few minutes after I have spoken to him and confirmed that what Maggi Maarman said was the truth and Dr. Jen also said that the dog will be okay until next week Thursday. Will follow up.
