Comments:	David called me this morning to inform me that the other 2 dogs were collected this weekend. He would like for Puna to rather be euthanized as he wont be able to afford the veterinary treatment , he apparently took Puna on Saturday but the vet quoted him R4500 for the eye surgery. He apparently tried to call me over the weekend to ask If I can assist him on monday with euthanisia, unfortunately the area where I reside had very bad signal and his calls did not connect.
Captured By:	I made arrangements with David to collect the dog today and euthanise him. CARINA BODENSTEIN 2024-07-05 13:04
