Comments:	The complainant provided me with the new address of where the horse has been moved to. Duykereiland Gaste Plaas, Britannia Bay. I drove here and saw here are alot of horse kept in paddocks with adequate shelter etc, appears to be a livery yard. I could not gain access to the property as there is a big automated gate, with no contact details, or intercom system. I will try to contact the owner again to try and meet up at the facility for a final check to be done.
