Inspector:	CARINA BODENSTEIN

Type:	CALL RECORD - RECEIVED
Follow-Up Date:	2024-11-19
Comments:	Call received from the owner that he wont be able to meet with me today, as he is struggling to get off at work, however he did advise that he installed the runners for the dogs and that he also got both dogs new collars. The dog in front is on the runner, but the dog at the back got off the runner and broke into his chicken coup, so he first need to fix the chicken coup before placing the dog at the back on the runner again. He will have this sorted by the weekend. He advised that he will send me pictures this evening when he gets home. I will go past the property next week, as all should then be done by then and both dogs on the runners.
