The Swartland and West Coast SPCA has conducted numerous inspections at this facility and advised the owners that they are in contravention of the PAPA. The PAPA application forms have been shared with the owner, however the owner has not made any effort to submit these forms.

The facility has a large number of animals ranging from wildlife to livestock.

The animals are evidently on display, and the public can feed and touch the animal/s if they wish.

Kindly advise if more information is required.

We trust the appropriate action will be taken from your offices.
