General Report Comments: FOLLOW UP ON PREVIOUS WARNING ISSUED AT THE 1X PIG OWNER. ENCLOSURES AT:  
GPS LOCATION: -32.9266474, 18.0353129

Upon arrival, no one seemed to be present at the enclosures. I saw the same pigs as previously, except 1x pig that was in the first enclosure is no longer here, this pigs current whereabouts is unknown.

The warning I issued earlier in the week is still fixed to the pole as I left it.

There has evidently been someone at the enclosures today as pig pellets (food) was seen in bowls. This food must have been placed by someone, as this person should have seen the warning.

The concern regarding shelter has not been resolved, the condition these pigs are kept in is still the same as previously observed.

I issued a final warning:

1. Provide pigs with drinking water at all times.
2. Provide adequate shelter to all the enclosures, fix the loose/broken zinc plates.

48hrs granted
