General Report Comments: Today I did a kraal to kraal inspection of the top kraals.

I inspected 6x kraals. There were only animals in 3 kraals. Pigs, I saw about 20 pigs in total. The one kraal appears to no longer house animals and the other 2 kraals appears to be the night enclosures of sheep/goats, due to the faeces observed.

The kraals are in fair good repair. The animals appeared to be in good condition with no veterinary or health concerns observed. The animals had access to adequate shelter and a fairly clean living area. The pigs had a dry and muddy area.

I will do the middle section of the kraals next week.
