CHECKLISTS

General Report Comments: We did a joint follow up inspection at the property together with Inspector Ayanda and Inspectoro Werner from Cape Of Good Hope SPCA to see if the warning that was issued to them was adhered to. A lot of the animals were removed and given to other Welfares. Myself and Field officer Chiwawa attended. Inspector Ayanda asked Vanessa if there are records for all animals. Vanessa told her that Malmesbury Animal Hospital attended the property and they are busy with vet reports. We have received the vet reports from Jaco Pieterse on 30 Aug 24 and at this stage the following to be noted refer to the attached documentation from Malmesbury Animal Hospital: 15 dogs admitted for urgent medical care. 57 dogs that require veterinary care. 32 dogs are okay. 21+ dogs not seen yet by the vet. Another warning was issued for the dogs that must be taken for veterinary treatment. For the 5 cats that must be taken to a vet for feline aids leukemia testing. A Chicken with an problem with his foot. And that no new animals may be taken in at this stage.
