General Report Comments: I saw 1x black and white collie x male on a short chain without any water. I called the kids and gave them water to give to the dog because they know the dog. I asked where the owner is and they told me that they don't know where the owner is. The dog is a bit underweight as well. The kids told me who the owner is and I issued a warning to provide the dog with adequate shelter and to put the dog on a running chain. Will recheck.
