General Report Comments: I met Mr Nigel Pharo and at first he was a little bit angry but I managed to explain to him the reason why I was at his property. The male dog named Rex was on a long static chain with a collar. The female dog named Lola was on a short static chain with a collar. The chain was entangled and the dog couldn't reach the kennel. The body condition of both dogs is fair and acceptable. Both dogs are sterilized. Mr Nigel Pharo admitted that it was wrong the way how the female dog was tied up and he removed both dogs from the chains and they started to run loose. Water, food, shelter and collars observed. I issued a Notice to comply and will recheck
