General Report Comments: Onja Hanekom the owner of the property took me to see the 2x donkeys. I told Onja what the complaint is about and she first took me to see the donkeys oathay so the donkey have food and then she took me to their water trough so both donkeys has access to fresh potable water. Onja then took me to go see the donkeys at the back of the property. I saw 2x adult donkeys grazing in the field. Both donkeys are still loosing their winter coats and is shedding,for some people it might look if the donkeys has a skin problem or something but it's normal. The donkeys according to me is in acceptable conditions and their body weight is also acceptable. The donkeys do have water,food and shelter available and they don't look sick in anyway,and their tummies are not swollen. Nfa until further notice.
