General Report Comments: Upon arrival, I was met and granted access to the property by the owner's (Peter) son & daughter.

Firstly I commended them for installing a superb running chain.

I saw the same dogs living in the same conditions as previously. The large brown dog was chained to the main gate again. I asked them to install a runner for him as well and they advised that they will do so within the next few days.

The brown dog appears as if he has lost weight in the past week. I will monitor his weight over the next 3 weeks.

As I was about to leave, a lady came from one of the other farm houses and asked for advice regarding her dog that she also now had to put on a static chain. I provided her with a running chain leaflet and she indicated that she will have her husband install such within the next week. I did not issue her with a warning, as she approached me asking for assistance.

I went to her property to have a look at the dog and saw the dog (black, xbreed) on a short static chain of approximately 2m long.

I will follow up on both properties when I return next week.
