General Report Comments: I saw 1x tan terrier x female with 5x puppies. I noticed that the 1x puppy's nose is bleeding non stop. I confronted the owner Mario about the situation and he told me that Lexi the mother of the puppies bit the puppy. I told Mario that he must the puppy to a vet and while I was busy issuing him with a warning he decided to surrender the mother and the 5x puppies. Refer to admissions D5618-D5623. No other dogs on the property. Nfa until further notice.
