WATER AVAILABLE	Yes	
ADEQUATE SHELTER AVAILABLE	Yes	
ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Lesner is still underweight
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Lesner is still underweight
CONFINEMENT OF ANIMALS	Static Chain - adequate length	No fence

General Report Comments: Upon arrival, I was met and granted access to the property by the owner's mother.

I observed 2x dogs kept at the back of the house.

Dog 1: Pitbull, Male, intact, Brown/white named Lesner.

Kept on a static chain of approximately 4m long, attached to a pin in the ground granting the dog 360 degrees movement space. The dog also has a suitable leather collar. Has a large wooden kennel, water, clean living environment. The dog still appears to be underweight, however has evidently picked up weight from the initial photos uploaded from the initial inspection.

The dog was apparently recently dewormed and is fed 2x day dog pellets mixed with house food left overs.

Dog 2: Pitbull, Female, not sterilised, Black/white named Lexi.

Kept on a static chain of approximately 4m long, attached to a pin in the ground granting the dog 360 degrees movement space. The dog had a suitable leather collar on. Has a large wooden kennel, water and clean living environment. The dog is in good condition with no veterinary and/health concerns observed.

The dogs are chained as the property has no fence and the dogs fight if they are kept together.

I observed the chains being slightly twirled and further saw that there are no swivels on the pens. I explained to the mother that her son must fix swivels onto the pens as this will prevent the chains from twirling. She understood and will share the information with her son.

I did not issue a warning as the owner is in compliance and working along nicely.

I will follow up in 7 days to verify if the swivels were implemented and thereafter every 3-4 weeks to monitor Lesner's weight gaining.
