General Report Comments: Upon arrival, I was met and granted access to the property by the owners mother.

I observed the same 2 dogs as I did previously. They are chained at the back of the property as the property does not have a fence.

The chains are approximately 5m long, light chains. The dogs have hosepipe collars, access to large kennels, water and a clean living area.

I saw that the swivels have not been implemented yet, to prevent the chqins from possibly twirling, the mother advised that her son is just waiting for payday then he will buy and install them.

I will follow up after payday and verify compliance.
