General Report Comments: Upon arrival, I was met and granted access by Mike, the owner.

The dog of concern was discussed and the owner has made a booking at Bergzich Animal Clinic in Malmesbury for Saturday 09h15.

Mike said that the skin has become better, however he decided to rather have the dog assessed by a veterinarian, as he went to Bergzich a few weeks ago, without the dog and medicine was given, but they also advised that they rather need to see the dog in person.

The other dogs have fly strike, however he does apply ointment, teremycin spray (bought at Agrimark) and applies Vaseline in the evenings to assist with hair growth.

The 2 young dogs are not sterilised, but the owner wants them to be as they are constantly growling at each other. I advised him to take the dogs to COGH SPCA, as he works in Cape Town it will be easier to take them. He said he will let me know if he needs assistance with the arrangements. These dogs also have small hot spots on their hocks, however the owner is treating the areas with Teremycin wound spray.

After the Veterinary visit on Saturday, he will send me proof via whatsapp regarding the diagnosis and prognosis. If I have not received any proof, I will call him on Monday.
