VETERINARY PROBLEMS / HEALTH CO	Yes ***	Animals has to be dewormed,and also to be treated for externe
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: I went to do a recheck at number 36,4th Avenue in Saldanha. Gert De Kok the owner of the animals opened the door. I asked Gert if I can see the food for the dogs and the kittens and also if they had dewormed the animals like have asked them to do on the warning. Gert told me that they don't have any food and that Koos who also stays on the property is feeding the animals. I told Gert that Koos is not he owner and that he must take responsibility for his pets. The body conditions of the dogs and kittens has deteriorated since the last time I have seen them and the black terrierx male has developed a skin problem on his back. The smell of cat urine and feaces is unbearable. I had some dog food with which I gave to the dogs and they devoured it within seconds, even the kittens came to eat the dog pellets that's how hungry these animals are. The owner has not adhered to the warning and clearly is unable to look after these animals. Will follow up.
