General Report Comments: Upon arrival at given address, I was met by an unidentified male. He advised that the dog I am looking for resides at 03 Tafelberg Street, just down the road. He then accompanied me to the given address.

At the new address, I was met and granted access to the property by a female who identified herself as Ms Christina Filander. I observed 3x dogs in total.

Dog 1: Mario, Xbreed, Male, black/tan, Adult, BS 1.5/5, appears to be sick likely has biliary. The dog is covered in ticks

Dog 2: Tiekie, Pom x, Female, Adult, white/tan, BS 2/5. Gave birth to 1x puppy 1 week ago

Dog 2: Luigi, Pom X, Male, 1 week old, white/tan, BS 2.5/5

The owner agreed to surrender Mario, as she can not provide veterinary treatment to him.

Dog was admitted: ADM #D7301

The remaining dog with puppy, has access to adequate protection against the weather elements by the means of a dog kennel, they also have access to the house. Food (no name) and water was observed. Living area was clean. No veterinary and/or health concerns were observed.

No APA contravention were observed, and I am confident in closing the matter as no further intervention is required.
