General Report Comments: I saw 1x brown terrier x male on a short chain with a collar. Water and shelter is available. Body condition is acceptable. I asked Gail the owner why the dog is on a chain and she told me that the dog is aggressive and as I can see the property is not fully fenced. I educated about a running chain and issued a warning to install a running chain within 7x days because the dog does not have enough space with his chain being to short. Will recheck.
