CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon arrival, I observed the property has no gate and I entered the property. A young man came from the house and introduced himself as Amalfranco Matske, the owner of the dog. He is 15 yrs old, but is taking full responsibility for the dog as he has no parents.

I observed the dog of concern free roaming. The dog is thin, has suspected mange, full of old scars and has cancerous growths, the dog was overall in poor condition.

According to Amalfranco he got the dog 2 years ago and that she looked worse. I indicated to him that the scars on her body are new and fresh, and definitely not older than 2 years.

I advised him to surrender the dog, to which he agreed. I admitted the dog.
ADM: D7315

I issued the owner with a warning (W5207) for future reference stating that in future if you have an animal in your custody, control, charge and/or possession that is in need of veterinary treatment, such treatment must be provided without unnecessary delay. The owner understood and signed the warning.

There are no other animals on the property and I am confident in closing this case as no further intervention is required.
