General Report Comments: Accompanied by Law Enforcement Official.

Upon arrival, it appeared as if the owner has done nothing. The condions appear to be still the same if not worse.

I observed a dark bay horse today, the horse us underweight with his rib bones clearly protruding.

I observed about 4x dogs roaming around and the appeared to be ubderweight with the hip bone, spine and rib cages evidently visible.

The owner has not made any contact with me, eventhough the warning previously issued was removed from the main gate where I have requested the owner to contact me.

I proceeded to issue a final warning (W5219) stating:

1. The underweight animals by be assessed by a veterinarian for possible treatment to be provided.
2. Call me to discuss the concers as well as inform me which veterinarian assessed the animals.

5 days were given to comply.
