General Report Comments: No one was present to grant me access and for me to conduct a physical inspection of the animals.

From what I could see from the gate was 4x pigs laying in the rain and 1x horse standing in the rain.
A few dogs were running around but did not want to approach me.

I heard in the structures on the right, inside the property, more horses but could not see them.

I proceeded to issue a final warning (W5230) stating:

1. Provide animals with adequate shelter;
2. Provide the 1x horse and dogs with veterinary treatment as they are underweight and likely has underlying medical conditions.
3. Clean and hygienically maintain the animals living environment.
4. To contact me.

7 days were given for compliance.
