General Report Comments: Upon arrival, I was met and granted access to the property by Bianca, the owner.

The dog was observed inside the house, according to Bianca they decided to rather keep him indoors as the love him and dont want people to hurt him outside. They still have the chain (6m) and shelter outside, and he is only put on the chain when he needs to urinate or defecate, othertimes he is indoors. He also sleep indoors now.

The dog is in good condition, with no veterinary and/or health concerns observed. No APA contraventions were observed during the time of my inspection and I am confident in closing this case as no further intervention is required.
