General Report Comments: GPS COORDINATES: -33.32427, 18.34425

While driving in the area, on route to another complaint, I observed the dog chained on a short static chain of approximately 3m in length. The chain is also twirled. The dog is kept at the main entrance of the house. Has a kennel and water. The dog also has a chain around the neck. The dog is in good condition and no veterinary and/or health concerns observed.

The property is not well fenced, and I can only assume it is due to the property not properly being fenced.

I proceeded to issue a warning (W5228) stating:

1. If it is required for the dog to be chained, place the dog on a running chain.
- 1.1. Refer to the running chain leaflet attached regarding dimensions etc.

7 days were given for compliance.
