General Report Comments: Upon arrival, it appeared as if nonone was home as no one respondes to my presense.

I observed the dog to be places on a running chain of approximately 10m long with an attaching chain of 5m. The dog has a kennel that is placed underneath a carport. The dog has 2 bowls of water.

I saw the dog having a chain around the neck and that some grass patches might obstruct the runner.

I issued a warning (W5238) stating:

1. Place the chain inside a hosepipe or bicycle tube, as the chain is causing chaving.
2. Clear the runners path for the runner to run smoothly.

I will follow up next week when I am in the area again.
