CHECKLISTS

WATER AVAILABLE	No ***	
ADEQUATE SHELTER AVAILABLE	No ***	
ADEQUATE SPACE AVAILABLE	No ***	Chained on short static chains
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Underweight
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Underweight
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	Low fence, no property gate

General Report Comments: Upon arrival, it appeared as if no one was home as no one responded to me calling out.

From the property gate I observed 4x dogs all chained on static chains.

The 2x young dogs are chained on the left side of the property. Their chains are fixed to their kennel. The collar is fit for a medium size dog but not for more than one dog. The dogs have raw chains around their necks and both dogs are underweight as their hip bone, rib cages and spine were protruding.

The older dogs are chained at the front and right side of the property. The Boerboel x has a rather long chain of approximately 5m long, however the other dog has a chain of approximately 2.5m long. The dogs also have raw chains around their necks, and both dogs are also underweight with the hip bones, rib cages and spine protruding. These dogs don't have adequate shelter available.

None of the dogs have water available.

I proceeded to issue a warning (W5214) stating:

1. Provide animals with water 24/7
2. Provide all the dogs with adequate protection or shelter against the weather elements.
3. Have animals assessed by a veterinarian and possible treatment provided as the dogs likely have underlying medical conditions.
4. Place the dogs on running chains, as per the provided leaflet.

Compliance is expected within 7 days.

As I was about to leave a man (Joey) entered the property saying his sister resides here. He took the warning and advised that he will give it to her.
