General Report Comments: When I arrived Mrs Lewis and her husband was home. The dog with her 6 puppies were at home. Inside the house. When I told her that I received a complaint they told me they know who it is as this person was also at the house. The mother dog is a bit thin but not extremely as she just had 6 puppies. Mr Lewis told me that the puppies all have homes already. Mr Lewis said that when they puppies are gone they will have the female dog sterilised through the SPCA. There are no welfare concerns with the mother. I will follow up in a month to make the appointment to have the dog sterilised.
