General Report Comments: The three dogs that I observed are all running freely inside and outside the property as the property is not properly fenced. I asked Van why the dog was screaming and he informed me that she was on heat and he didn't want her to mate with his neighbor's dog so he locked the dog named Melly inside the house. All three dogs that I observed are in a fair and acceptable body condition. The living environment is clean. Water and shelter observed. I will recheck
