General Report Comments: I saw 1x brindle Staffie male on a long chain with a collar . Upon closer inspection I saw that the Staffie is underweight and also has a skin problem . There is also push around the dogs eyes which can indicate that he is sick. Felicity Titus the owner came out and asked me if there is a problem,whereby I replied yes there is a problem. I asked why the dog is in this condition and if they are treating him. Felicity told me that they don't have money. I asked Felicity if they don't want to surrender the dog and she said that she will have to talk to her husband. Felicity then saw that I was busy issuing a warning and she decided to surrender the Staffie male called Bites . Refer to admission D5663. No other animals on the property. Nfa until further notice.
