CLEAN LIVING ENVIRONMENT	No ***	Dirty pigeon coup
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Static Chain - inadequate length **	Escapes property

General Report Comments: Upon arrival, I was met and granted access to the property by Brendaline Blaauw, the owner.

There are 2x dogs and 4x pigeons (breeding pairs) kept on the property.

Dog 1: Danger, lab x, male, adult, tan/white.

Kept on a short static chain, approximately 2m long, at the front door, also has a raw chain as a collar. The dog apparently escapes the property and also fights with the other dog. The dog has access to a large kennel as protection against the weather elements, a clean living area and potable water.

Dog 2: Spottie, Pitbullx, female, senior, white/black.

Kept on a running chain of approximately 6m long with an attaching 2m chain, also has a raw chain as a collar. The dog has access to a large kennel as protection against the weather elements, a clean living environment and potable water. The dog also has a bit of a skin condition, but is currently on treatment. The dog was dewormed last week and treated with nexgaurd.

Pigeons: there are 2x large pigeon coups with a breeding pair in each. There is sufficient perches and nesting areas, however, the coups are very dirty with old and fresh excrement all over. The pigeons have adequate protection against the weather elements, and potable water.

A warning (W5245) was issued for the owner:

1. Place Danger on a running chain, leaflet attached for guidance.
2. Replace chain collars with suitable collars, or place the chains in hosepipes.
3. Clean the pigeon coups and hygienically maintain it thereafter.

7 days given for compliance.
